WASTED FOOD = WASTED SOIL

Reducing Food Waste Preserves Natural Habitats

Each year, Central Ohio residents waste **160,000 acres of land** that are used to produce food that is never eaten. That's roughly half the landmass of Franklin County.

WASTED FOOD = WASTED ENERGY

Reducing Food Waste Saves Energy

When food is wasted in Central Ohio, all of the energy and fuel used to grow, harvest and transport it is lost.

**WASTED FOOD
=
WASTED OPPORTUNITY**

Reducing Food Waste Strengthens our Community

For every meal missed by Central Ohio neighbors in need, three meals are sent to the landfill. Rescuing food can help to ensure that no one goes hungry.
